

# QuickProject Mobile App for iOS and Android

## Easy day-to-day project management delivered on the go

QuickProject mobile application is designed for project managers and team members to enable anytime, anywhere time tracking, reporting and increase organization-wide user adoption.

It works on Microsoft Project Online and Microsoft Project Server installations and facilitates day-to-day project management activities with an easy interface for Android and iOS platforms.

<b>Better project execution with quick task assignment and tracking</b>	<b>Easy monitoring of projects with project and milestone views</b>	<b>Quick view of relevant work and status</b>
<b>On time reminders to stay on track</b>	<b>Increased team interaction and productivity</b>	<b>Efficient management of work even on the go</b>

## Quick access to timesheet, project tasks, and updates on Android or iOS mobiles
